Dear Lew:

I mentioned to you last week how much I enjoyed working with you on the National Committee of the 1960 International Solid State Circuits Conference. I believe that you deserve a great deal of credit for your contribution to the success of the Conference, and particularly for your excellent handling of our public relations.

I hope that I can look forward to future associations with you even though my functions with the Solid State Circuits Conference will terminate in the near future.

Best regards.

Cordially yours,
